E-Safety Information for Parents / Carers

Everyone has a role to play in empowering children to stay safe while they enjoy the new technologies, just as it is everyone's responsibility to keep children safe in the non-digital world.

Please use the following advice to keep your child safe online

- Supervise your children whilst they are using technology
- Always ensure you know passwords for your children's devices
- As parents / adults always know what your child is doing online
- Check their devices regularly to ensure they are using them safely
- Check website history regularly to monitor the websites your child is viewing
- Do not allow children to delete their history
- Check your Internet Settings at home. In school, sites are filtered at home filtering depends on your settings
- Contact your Internet Service Provider (ISP) to help with Parental Control settings
- Give your child time limits. It is recommended that a break should be taken every 20 minutes when using a device
- Do not allow children to have their tablets in their rooms at bedtime
- Ensure games played are age-appropriate. Games which are violent encourage children to play inappropriate games
- It is not advisable to let young children play online games – they are not old enough to recognise the danger of competing against / playing with other players

Social Networking

All social networking sites have their own terms that you agree to when you create an account, please read these carefully before signing up.

Technologies in school

The school ensures that children are able to use the internet and related communications technologies appropriately and safely and is addressed through our computing curriculum.

The following items are adhered to: -

- Pupils may not bring mobile phones to school
- Mobile phones must be on silent when entering school
- Mobile phones are not permitted in nursery when parents / carers are spending time with their child; for example, workshops, 'stay and play' sessions, Celebrations
- Any digital communication between staff and pupils or parents/carers (E-mail, RMUNIFY etc.) must be professional in tone and content
- We do not allow staff to be friends with parents or children on social networking sites
