Activities to do at home with your children

Take a look at our activities that will enable you to create low-cost fun crafts for the whole family at home.

Build a tower with empty boxes

Help baby learn about cause & effect as well as turn taking.

The first 1001 days of your baby's life is a crucial time for your little one's brain development. This starts from the moment they are conceived. There is a lot you can do to help your child learn through play and everyday life.

Paint with water

All you need is, tubs of water and paint brushes or sponges. This is a great activity for outside on a warm day, let your child use their imagination and decorate outside hard surfaces for you.

Picnic Lunch

Gather your favourite teddies or other toys and invite them to lunch with you. Sit them down with your bowls and spoons as you enjoy lunch or a picnic together. Role play develops your child's social & emotional skills whilst providing a good opportunity for communication & language. Let your child lead this activity, giving opportunity to extend their imagination skill.

Cress Heads

You will need:

- Empty egg shells, just the top missing
- Cotton wool
- Cress seeds
- Water
- Empty egg box or bottle tops
- Felt tips

Method:

1. Take your egg shell, draw on a face or however you want your cress head to look.
2. Stand it in either an empty egg box for support or stand on a plastic bottle top.
3. Wet the cotton wool so that it is damp.
4. Carefully push the cotton wool inside the egg shell.
5. Scatter a few of the seeds on top.
6. Keep somewhere bright like the window sill and wait patiently for it to grow.
7. Once grown you can add it to a sandwich or a salad and try something you have grown yourself.
8. If you don't have or don't want to use egg shells you could use a small yoghurt pot using the same instructions.
