Dear Friends

Thank you.

We were delighted to receive your kind donation of £86.38 and would like to say a huge thank you. As a charity, we are dependent on the kindness and generosity of people like you to meet the needs of disabled and terminally ill children, giving them the best possible life.

Your kindness truly makes a world of difference for children like Rudy from Cardiff. Rudy has weakness in his right side and limited mobility, following treatment for rare tumours. Using his old NHS wheelchair was not only uncomfortable and painful for Rudy, but it also restricted his ability to participate in activities he enjoyed. He couldn't explore the outdoors with his family or simply keep pace with his friends.

However, thanks to the support of incredible donors like you, Rudy now has a brand-new power wheelchair. This life-changing equipment has opened up a world of possibilities for him.

"The new wheelchair is so much better and enables Rudy to do so much more," shares his mother, Amy. "He can finally go to the beach, explore farms, and even join his cousin playing rugby – things he never thought possible before."

Specialist equipment has a wonderful impact on children's lives, helping children like Rudy to explore, connect, and experience the world with greater joy. Every gift we receive allows us to provide vital equipment and support to disabled children across the UK, empowering them to live fuller, happier, more independent lives.

Thank you once again for making a difference to the lives of disabled children and their families

Yours sincerely,

Joanna Duggan
Director of Fundraising

"The new wheelchair enables Rudy to do so much more. He can finally go to the beach, explore farms, and even join his cousin playing rugby – things he never thought possible before."
